Presente! (From the Spanish: Presentar).
May 24-June 1 IN THE CHAPEL

This multidisciplinary program includes original spoken and sung poetry, poetic monologue, and performance poetry. The show is organized around varying background harmonics used to contrast rhythmic energies with topics such as crimes against humanity.

Each performance will include an impromptu painting by Branko Gulin. Guests are invited to participate by making “offerings” that will become a vital part of each show.
